

Information for Dog Owners

We are happy at Cornwall Harbour Views to accept dogs. One medium size dog or 2 smaller is the maximum.

Dogs must never be left in the apartments for long periods of time. Any damage caused by your pet will have to be paid for.

Animals can **never** be left alone in the garden at 59 for two reasons. It is a shared garden with the first floor property. You must accompany your pets if they are in the garden for safety to others. The other reason is that the grass is artificial and the garden is a sun trap. If dogs go to loo on the grass it will smell badly and also not be hygienic should children wish to play on it.

A childrens safety gate is placed at the top of both of the first floor apartments. This will ensure your pet doesn't run down the stairs if you leave the front door open.

Dogs can be quickly exercised in the back lane next to the car park or along the wide grass verge on the harbour which is just across the road. Both these options are less than a minute away from the properties. All dogs mess must be picked up in these areas.

We charge a £10 surcharge per animal to cover the extra cleaning.

We must be notified if you wish to bring a pet with you.

For walks close to the apartments please refer to pages on suggested walks.

Animals are allowed on the beach after 7pm between Easter and Oct 1st. There are 2 areas of beach were dogs are allowed all year around.

These are Lelant Beach & Sandy Acres. For directions please refer to beach page.

From 1st October to Easter dogs are permitted to go on any beach.

There are fines for any one not picking up their dog's mess on the beach & in the town.
